💼 apcexterminators.com 🚀 helloprompting.com

Executive Profile: High-impact strategist engineered to accelerate Brand Campaigns, Digital Media, and Corporate Communication across premier institutions. Synthesizes business acumen in **Marketing & MIS (NSU)** with procurement and budgeting precision **(ISCEA CSCA)** and elite technical capability as a **Self-Taught AI Engineer**. Pioneered a code-first design workflow using **Google AI Studio & VS Code to generate production-ready campaign designs 10× faster than traditional Figma cycles**. Proven record managing Meta Ads campaigns, agency deliverables, and national NGO digital platforms. **National Champion in Crisis PR (JCI) and Supply Chain Strategy (CUET)** with unmatched execution velocity.

CORE COMPETENCIES & TECHNICAL CAPABILITIES

📢 Brand Campaigns & Creative

- Campaign Planning & Briefs
- Agency Coordination
- Google AI Studio & VS Code
- 10× Faster than Figma (Generative UI)
- Canva
- Brand Style Guidelines
- Timeline Trackers & SLAs

🔳 Digital Content & Media

- Meta Ads Campaign Management
- Website CMS & Content Updates
- Google Ads & GA4
- Social Media Planning
- Creative Agency Direction
- Copywriting & Storytelling

🤖 Next-Gen AI & Tech Systems

- Artificial Intelligence (AI) Mastery
- Multi-Model LLM Prompting
- AI Content Automation
- IT Support & Systems
- Antigravity & VS Code
- Full-Stack Web Architecture

🤝 CSR, PR & Crisis Management

- CSR Strategy & Communication
- National Crisis Champion (JCI)
- NGO & Stakeholder Relations
- Impact Reporting
- Press & Digital PR Releases
- Community Outreach

📊 Budget, Invoices & Operations

- Budget Allocation & Tracking
- Agency Quotation Analysis
- Invoice Reconciliations
- CSCA Supply Chain Analyst
- Cost & ROI Modeling
- MS Office (Excel, PPT, Word)

🎯 Market Research & Intelligence

- Competitor Benchmarking
- Customer Support Telephony
- Consumer Sentiment Analysis
- Financial Brand Positioning
- Conversion Rate Optimization
- MIS Data Analytics

PROFESSIONAL EXPERIENCE (PART I)

Growth Strategist & Campaign Lead – APC Exterminators (Winnipeg, Manitoba, Canada / Remote) — July 2026 – Present

- **360° Digital Campaign Execution:** Spearheaded digital acquisition campaigns across **Meta Ads** and **Google Ads**, directing allocated advertising budgets, optimizing performance creative, and tracking real-time ROAS across commercial and residential customer segments.
- **10× Generative UI & Production Design:** Replaced slow, static wireframe cycles by using **Google AI Studio and VS Code** to generate exact, pixel-perfect, production-ready landing pages and campaign creatives **10× faster than traditional Figma workflows**, completely eliminating design-to-developer handoff friction.
- **Competitor Analysis & Brand Positioning:** Conducted comprehensive competitive benchmarking across regional market providers, synthesizing pricing elasticity data to author positioning briefs that established brand authority and increased quarterly recurring contracts.
- **Website Management & MarTech Integration:** Directed website content updates and conversion architecture using **Antigravity**; integrated Google Analytics 4 (GA4) with CRM pipelines for complete attribution from ad impression to service invoice settlement.
- **Agency & Vendor Relations:** Managed external creative contractors and platform vendors, evaluating quotations, enforcing strict project timelines, and maintaining flawless billing and documentation.

Co-Founder & Brand Manager / Product Lead – HelloPrompting — 2026

- **Brand Architecture & Corporate Messaging:** Formulated the overarching brand identity, visual guidelines, and corporate tone of voice for an AI Prompt Optimization copilot serving international users across ChatGPT, Claude, Gemini, and Grok.
- **Digital Content Direction:** Supervised cross-channel content calendars, product launch briefs, explainer videos, and social graphics using Canva and modern AI tools.
- **AI Integration & Campaign Innovation:** Spearheaded applied AI implementations, deploying multi-model prompt engines to automate copywriting ideation, monitor user sentiment, and accelerate customer conversion funnels.

PROFESSIONAL EXPERIENCE (PART II)

Full Stack Engineer & Digital Transformation Lead – **HelloTech** (Client: VERC - Village Education Resource Center) 2026

- **National Institutional Website Management:** Led the end-to-end digital redesign and website content management for VERC, a legacy national development organization serving Bangladesh since 1977.
- **CSR Communication & Impact Storytelling:** Structured the public communications, digital publications, and CSR impact reporting for nationwide social programs across 40+ branch networks, engaging institutional donors and corporate CSR partners.
- **Stakeholder Alignment & Executive Documentation:** Coordinated between executive board directors, field program heads, and technical teams; authored 2,189 lines of rigorous operational and system documentation maintaining an A+ grade.
- **Enterprise AI Systems:** Architected an 8-mode AI reasoning engine (HGPT suite) integrating Gemini 2.5 Flash/Pro and Grok with academic pipelines, cutting operational response latency by **55%** (1.7s → 0.76s) and reducing inference costs by **35–60%**.

APPLIED RESEARCH FIELD & TECHNICAL INNOVATIONS

- **Cognitive AI Systems & Prompt Intelligence Logic (PIL):** Designed an advanced cognitive reasoning framework (*Observe → Understand → Act → Learn*) implementing cross-model consensus validation across Gemini, Grok, and open-source LLMs to automate research synthesis.
- **Inference Economics & MetaOps Optimization:** Researched Pareto-optimal latency/cost trade-offs in high-throughput production LLM pipelines, achieving mathematical cost optimization and real-time responsiveness.
- **Operations Research & Field Logistics (CSCA):** Applied quantitative supply chain analytics and Information Systems (MIS) modeling to optimize service delivery schedules, resource capacity, and customer retention metrics.

EDUCATION & PROFESSIONAL CREDENTIALS
