Md Junayed Alam

Growth Marketing Manager | B2B SaaS Demand Generation & AI-Native Architect

BBA in Marketing & MIS (North South University) • Certified Supply Chain Analyst (CSCA, ISCEA) • Self-Taught AI Engineer

📍 Dhaka, Bangladesh (Remote US-Aligned) ✉️ alamjunayed221@gmail.com 🌐 zion369369.github.io (Portfolio) 💻 github.com/zion369369

💼 apcexterminators.com

Executive Profile: Results-oriented, **AI-native B2B Growth Marketing Manager** with proven success driving qualified pipeline across multi-tiered retail and commercial account segments. Combines quantitative business training in **Marketing & MIS (NSU)** with supply chain precision **(ISCEA CSCA)** and elite full-stack engineering. Demonstrated expertise building demand generation programs in lean environments without bloated agency spend—orchestrating multi-channel campaigns (Google Ads, Meta Ads, ABM, Webinars), sales/SDR cadence alignment, and closed-loop CRM attribution (HubSpot, GorillaDesk, GA4). Leverages **Google AI Studio and generative AI tooling** to accelerate campaign development velocity by 10×. 3× National Competition Champion.

CORE COMPETENCIES ALIGNED WITH SAFR / REALNETWORKS

🚀 Demand Gen & Pipeline Growth

- Multi-Channel Demand Gen
- Account-Based Marketing (ABM)
- Webinar Planning & Delivery
- MQL / SQL Pipeline Creation
- Retail Segment Targeting
- Nurture Journeys & Sequences

🤖 AI-Native Campaign Velocity

- Generative AI Marketing
- Google AI Studio & VS Code
- 10× Design-to-Code Prototyping
- Multimodal LLM Workflows
- Automated Copy Generation
- Prompt Intelligence Logic (PIL)

⚙️ MarTech, RevOps & Automation

- HubSpot & Marketing Automation
- GorillaDesk CRM Routing
- Google Analytics 4 (GA4)
- UTM Tagging & Lead Routing
- Closed-Loop Attribution
- Google Tag Manager

🤝 Sales & SDR Partnership

- SDR Outreach Alignment
- Sales Enablement Assets
- Target Account Prioritization
- National Crisis Champion (JCI)
- Executive Presentation
- Stakeholder Communications

📊 Analytics & Budget Optimization

- Influenced Revenue Tracking
- CAC / LTV Unit Economics
- Lean Budget Allocation
- CSCA Supply Chain Modeling
- A/B Testing & CRO
- MS Office (Excel, PPT)

🌐 Digital & Content Architecture

- Google Ads (Search & Local)
- Meta Ads Paid Campaigns
- Website CMS Management
- Canva & Visual Direction
- Competitive Benchmarking
- Full-Stack Web Architecture

PROFESSIONAL EXPERIENCE (PART I)

Growth Marketing Strategist & Demand Lead – APC Exterminators (Winnipeg, MB, Canada / Remote) **July 2026 – Present**

- **Lean Multi-Channel Demand Generation:** Built full-funnel acquisition programs targeting high-value commercial accounts (commercial facilities, retail chains, and property management networks) and residential segments in a lean environment without relying on bloated agency infrastructure.
- **Pipeline Creation & Paid Media:** Deployed high-converting Google Ads and Meta Ads campaigns; optimized Google Business Profile to capture top 3-pack local rankings, creating consistent inbound pipeline while lowering Customer Acquisition Cost (CAC).
- **10× AI-Native Campaign Velocity:** Replaced slow, static wireframe handoffs by leveraging **Google AI Studio and VS Code** to generate production-ready landing pages and campaign assets **10× faster than traditional Figma cycles**, enabling same-day A/B testing of messaging and CTAs.
- **Closed-Loop Attribution & Automation:** Integrated marketing automation with GorillaDesk CRM and Google Analytics 4 (GA4), establishing lead routing, UTM tagging, and end-to-end attribution from initial ad impression to signed service contract.
- **SDR & Sales Enablement:** Partnered closely with sales and field reps to prioritize high-value commercial accounts, providing campaign briefs, prospect intelligence, and messaging playbooks for outbound follow-up.

Co-Founder & Head of Growth / Brand – HelloPrompting **2026**

- **B2B SaaS GTM & Product-Led Growth:** Architected go-to-market strategy, brand identity, and customer acquisition funnels for a cross-platform AI copilot serving enterprise and developer users across ChatGPT, Claude, Gemini, and Grok.
- **Generative AI Campaign Acceleration:** Deployed automated content pipelines leveraging multi-model LLMs to generate high-performing social copy, product explainers, and technical documentation at zero incremental agency cost.
- **Nurture Journeys & Funnel Optimization:** Designed automated user onboarding flows and email nurture sequences, tracking cohort retention, activation benchmarks, and product referral loops.

PROFESSIONAL EXPERIENCE (PART II)

Full-Stack Lead & Technical Product Delivery – **HelloTech** (Client: VERC - Village Education Resource Center) **2026**

- **Institutional Digital Overhaul:** Spearheaded the end-to-end digital redesign and website content management for VERC, a legacy national development organization serving Bangladesh across 40+ branch networks since 1977.
- **Multi-Stakeholder GTM Execution:** Aligned executive directors, regional branch heads, and technical teams to structure information architecture covering institutional programs, CSR impact reports, and enterprise donor engagement.
- **8-Mode AI Multi-Model Architecture:** Engineered a cognitive reasoning platform (HGPT suite) integrating Gemini 2.5 Flash/Pro and Grok APIs with real-time academic pipelines, reducing operational latency by **55%** (1.7s → 0.76s) and slashing inference costs by **35–60%**.
- **Enterprise Documentation & Reliability:** Authored 2,189 lines of rigorous operational specifications maintaining an A+ grade, bridging non-technical executive leadership with engineering teams.

APPLIED RESEARCH & AI-NATIVE SYSTEMS

- **Prompt Intelligence Logic (PIL) Framework:** Formulated an advanced cognitive reasoning framework (*Observe → Understand → Act → Learn*) implementing heterogeneous multi-model validation across Gemini 2.5 and open-source LLMs to automate research and campaign intelligence.
- **Inference Economics & MetaOps Optimization:** Researched algorithmic cost-performance frontiers in enterprise LLM deployment, achieving mathematical cost optimization and real-time responsiveness.
- **Quantitative Supply Chain Analytics (CSCA):** Applied operations research and Information Systems (MIS) modeling to streamline marketing workflows, campaign budget allocation, and recurring customer churn prediction.

EDUCATION & PROFESSIONAL CREDENTIALS

Bachelor of Business Administration (BBA) – Dual Major in Marketing & MIS **2019 – 2026**
North South University (NSU), Dhaka, Bangladesh
Marketing Strategy, Information Systems Architecture, Consumer Behavior, Database Management

Certified Supply Chain Analyst (CSCA) **2023**
ISCEA (International Supply Chain Education Alliance)
Quantitative budget forecasting, resource allocation, vendor contracts, process optimization
